Academic Program Description Form

This academic program description provides a concise summary of the most important characteristics of the program and the learning outcomes expected of the student to achieve and demonstrate whether they have made the most of the available opportunities. It is accompanied by a description of each course within the program

Educational .1 Institution	Anbar University
University .2 Department/Center	Faculty of Physical Education and Sport Sciences
Academic Program .3 Name	
Name of Final .4 Certificate	Bachelor of Physical Education and Sport Sciences
Academic System .5	فصلي
Accredited .6 Accreditation Program	
Other External .7 Influences	
Description .8 Preparation Date	2016/8/5
Objectives of the Academic Program .9	
<ol style="list-style-type: none"> 1. Preparing graduates with high theoretical and practical skills to meet the needs and serve the community in the field of physical education and sports sciences. 2. Providing graduates with practical applied skills and a mathematical background according to the scientific developments in the methodological vocabulary and modern teaching methods to pursue postgraduate studies in various disciplines of physical education and sports sciences. 	

Preparing graduates to participate effectively in sports, educational and -1
educational institutions and achieve benefits for the community.

Required Learning Outcomes and Methods of Teaching, Learning and Assessment .10

1. Knowledge and Understanding:

- The student has the ability to know and understand the basic principles of mathematics.
- The student has the ability to understand the rules of all sports.
- The student has the ability to understand the core and related study materials

2 Methods of Assessing Knowledge and Comprehension

1. Daily, Monthly and Quarterly Written Exams
2. Homework
3. Report Writing

3 Teaching and learning methods

4. Theoretical and practical lectures

Graduation Projects for Students of Finished Grades and their Discussion -

B. Subject-Specific Skills

Thinking skills

1. Description and analysis of sports games

Use of computer programs and visual presentations for physical education and -
sports sciences

1. Program Structure

11. 1 First year of study

Certificates and Credit .11

Course Description Template

Review of the Performance of Higher Education Institutions (Academic Program Review)

This course description provides a brief summary of the most important course features and learning outcomes expected of the student to achieve

We demonstrate whether they have made the most of the available learning opportunities. It must be linked to the description of Program

1. Educational Institution	Anbar University
2. University Department / Center	Faculty of Physical Education and Sport Sciences
3. Course Name	Mathematical Statistics – Phase II
4. Programs he enters	Bachelor
5. Available Forms of Attendance	Theoretical
6. Semester	First /2020 - 2019
7. Print Preview	30
8. Date of this description	2020
9. Course Objectives: The learner should be able to understand the theoretical aspect of mathematical statistics and how to statistically process data, whether it is the laws of central tendency, dispersion, tests of differences or correlation coefficients	

10. Learning Outcomes and Teaching, Learning and Evaluation Methods
<p>Theoretical Framework for Mathematical Statistics and Evaluation</p> <p>The scientific foundations of statistics for manual on the one hand and electronic on the other hand</p>
Teaching and learning methods
<ul style="list-style-type: none"> ❖ Theoretical lectures with the use of presentation aids ❖ Relevant Readings, References and Websites
Evaluation methods
<ul style="list-style-type: none"> ❖ Preliminary theoretical test:25 marks ❖ Second theoretical test: 25 marks
<p>-Thinking Skills</p> <p>Brainstorming and problem solving</p>
Teaching and learning methods
Partial and total teaching method
Evaluation methods
❖ Final theoretical test 50marks
(d) General and transferred skills (other skills related to employability and personal development). Use of numerical calculator and statistical applications

11. Course Structure					
Week	Credits	Required Learning Outcomes	Module / Course Name or	Teaching *method	Method of Evaluation
1	2		What is Mathematical Statistics	Explanation and model presentation	TE
2	2		Data and its presentation	Explanation and model presentation	Theoretical exam
3	2		Measures of Central Tendency	Explanation and model presentation	TE
4	2		Measures of Central Tendency	Explanation and model presentation	Theoretical exam
5	2		Scatterometers Part 1	Explanation and model presentation	TE
6	2		Scatterometers Part 2	Explanation and model presentation	Theoretical exam
7	2		Common Metrics	Explanation and model presentation	TE
8	2		TE	Question models	TE
9	2		Engagement Metrics Part I	Explanation and model presentation	TE
10	2		Metrics Correlation Part II	Explanation and model presentation	Theoretical exam
11	2		PART ONE TESTS	Explanation and model presentation	Theoretical exam
12	2		Tests of Differences Part II	Explanation and model presentation	TE
13	2		Statistic design	Explanation and model presentation	Practical Examination
14	2		Statistical distributions and assumptions	Explanation and model presentation	Theoretical exam
15	2		TE	Question models	TE

Subject
Prof. Dr. Marwan Abdul Hamid
Mahmoud Abdullah

Teacher Subject Teacher
Prof.Dr. Shaker

12. Infrastructure	
Required Readings: <ul style="list-style-type: none"> ▪ Course Books ▪ Other 	1- Qais Naji Abdul-Jabbar; Methods of Statistical Methods, Dar Al-Hikma, Mosul, 1991. 2- - Wadia Yassin and Hassan Mohammed; Statistical Applications and Computer Uses, Dar Al-Kutub, Mosul, 1999. 3- - Louay Ghanem Al-Sumaidai; Statistics and Testing in the Mathematical Field, Erbil, 2010.
Special Requirements	Classroom and sports hall
Social services (including e.g. guest lectures, vocational training, field studies)	A classroom and a laboratory for the theoretical aspect and the statistician and the application that represents the practical side

13. Acceptance	
Prerequisites	
Lowest number of students	
Largest number of students	

Review the performance of higher education institutions (Academic Program Review)

This course description provides a succinct summary of the most important characteristics of the course and the learning outcomes that the student is expected to achieve proving whether he has made the most of the learning opportunities available. It must be linked to the description of the program.
Program

1. Educational Institution	University of Anbar
2. University Department/ Center	Faculty of Physical Education and Sports Sciences
3. Course Name / Code	Foundations of Education – Fourth Stage
4. Programs he enters into	Bachelor
5. Available attendance forms	Theoretical
6. Semester/year	First / 2019 -2020
7. number Hours Tuition (Total	30
8. Date this description was prepared	2020
9. Course Objectives: In order for the student to be able to learn the foundations and principles of education in ancient and modern societies	
10. Learning Outcomes and Teaching, Learning and Evaluation Methods	

Theoretical framework for the foundations of ancient and modern education
Teaching and learning methods
<ul style="list-style-type: none"> ❖ Theoretical lectures with the use of presentation aids ❖ Relevant Readings, References and Websites
Evaluation methods
<ul style="list-style-type: none"> ❖ Preliminary theoretical test:25 marks ❖ Second theoretical test: 25 marks
-Thinking Skills Brainstorming and problem solving
Teaching and learning methods
Partial and total teaching method
Evaluation methods
❖ A final theoretical test of 50marks
(d) General and transferred skills (other skills related to employability and personal development).

11. Course Structure					
Week	Credits	Required Learning Outcomes	Module / Course Name or	Teaching *method	Method of Evaluation
1	2		Introduction to Special Education General Provisions	Explanation and model presentation	TE

2	2		Historical stages. Development of special	Explanation and model presentation	TE
3	2		In Ancient Civilization.	Explanation and model presentation	TE
4	2		Education in Mesopotamia	Explanation and model presentation	Theoretical exam
5	2		Education in China	Explanation and model presentation	TE
6	2		Education in Greece	Explanation and model presentation	Theoretical exam
7	2		Arab-Islamic Education Pre-Islamic Education – Post-Islamic Education	Explanation and model presentation	TE
8	2		Exam	Question models	TE
9	2		Pre-Islamic stage	Explanation and model presentation	TE
10	2		The era of the Islamic message	Explanation and model presentation	Theoretical exam
11	2		Islamic institutions and institutes teach women in Islam General Features of Islamic Education, Media of Educational Thought	Explanation and model presentation	Theoretical exam
12	2		The media of Arab thought (Ibn Khaldun , Ibn Sina , Imam al- Ghazali)	Explanation and model presentation	TE
13	2		Media of Western Thought (Jean-Jacques Rousseau , Pestalozzi , Jondewe)	Explanation and model presentation	Practical Examination
14	2		The structural basis of education in Iraq and future directions of the educational process	Explanation and model presentation	Theoretical exam
15	2		Exam	Question models	TE

12. Infrastructure	
Required Readings: <ul style="list-style-type: none"> ▪ Course Books ▪ Other 	1- Abbas Abdul Mahdi et al. Foundations of Education 2- Abdullah Abdul Dayem Education Throughout History 3- The social foundations of education, Muhammad Labib Al-Nujaihi
Special Requirements	Classroom and sports hall
Social services (including e.g. guest lectures, vocational training, field studies)	Classroom – Theory Lessons

13. Acceptance

16. Course Name / Code	Physical Injuries and Rehabilitation
17. Programs he enters into	
18. Available attendance forms	In-Person
19. Semester/year	2019-2020
20. number Hours Tuition (Total	30 hours
21. Date this description was prepared	2020
9. Objectives of the course : 1– Developing students by identifying sports injuries, their causes, types and most important of them.	
2- Contribute to community service .	
3-Helping the injured individual to know and be treated in the most appropriate ways .	

22. Learning Outcomes and Teaching, Learning and Evaluation Methods
Familiarity with sports injuries and how to rehabilitate them.
Teaching and learning methods
.Meeting and interacting.
Evaluation methods
Oral and written.
-Thinking Skills
(d) General and transferred skills (other skills related to employability and personal development).

23. Course Structure

Week	Credits	Required Learning Outcomes	Module / Course Name or	Teaching *method	Method of Evaluation
First Divorce	2		Sports injuries, their causes and type	Theoretical	Oral and written
Second	2		Muscular Injuries Types, causes and methods of treatment	Theoretical	Oral and written
The third	2		Muscular Injuries Types, causes and methods of treatment	Theoretical	Oral and written
Fourth	2		Joint Injuries Types, causes and methods of treatment.	Theoretical	Oral and written
Fifth	2		Joint Injuries Types, causes and methods of treatment	Theoretical	Oral and written
Sixth	2		Joint Injuries Types, causes and methods of treatment	Theoretical	Oral and written
The seventh			Joint Injuries Types, causes and methods of treatment	Theoretical	Oral and written

Eighth			Skin Injuries and Types Its causes and methods of treatment	Theoretical	Oral and written
Ninth			Skin Injuries and Types Its causes and methods of treatment	Theoretical	Oral and written
tenth			Vascular injuries, their causes and treatment.	Theoretical	Oral and written
11th Grade			28 Injuries of the spine 835 Types of causes and methods of treatment	Theoretical	Oral and written
twentieth			Head injuries, their types and methods of treatment	Theoretical	Oral and written
Thirteenth			Cruciate Ligament Knee Joint Injuries and Rehabilitation	Theoretical	Oral and written
Fourteenth			Ankle Injuries and Treatment Methods	Theoretical	Oral and written
Fifteenth			Injuries of muscular tears, their types, causes and methods of treatment	Theoretical	Oral and written

24. Infrastructure	
Required Readings: <ul style="list-style-type: none"> ▪ Course Books ▪ Other 	Sports Injuries/ Prof.Dr. Samia Khalil. Sports Medicine/Prof. Ibrahim Al-Basri

125. University Department/ Center	Al-Anbar University/ Faculty of Physical Education and Sports Sciences
126. Course Name / Code 2	Technical Gymnastics / Phase III
127. Programs he enters into	Bachelor's
128. Available attendance forms	In-Person
129. Semester/year	2019-2020
130. Number of Hours (Total)	30
131. Date this description was prepared	2020
Course Objectives <ul style="list-style-type: none"> • Delivering cognitive information to the student related to the technical gymnastics • Work on personal aspects of the student and teaching skills (practical aspect) 	

10.Learning Outcomes and Teaching, Learning and Evaluation Methods	
<ul style="list-style-type: none"> ▪ Learning outcomes refer to the goals that the learner must achieve by the end of the program or course. These goals express the knowledge, skills, or abilities that the student will acquire. The learning outcomes are measurable ▪ These methods refer to the strategies and techniques that teachers use to guide learners towards achieving learning outcomes. There is a wide range of methods that can be used based on the nature of the material and learning objectives ▪ Assessment refers to the procedures by which learners' achievement of learning outcomes is measured. The assessment process can be formative (for guidance and continuous improvement) or concluding (for determining the final level of knowledge or skills acquired). 	
Teaching and learning methods	
<ul style="list-style-type: none"> • 1- Theoretical lectures. • Applied Lectures 	
Evaluation methods	
Theory tests. Practical tests	
-Thinking Skills <ul style="list-style-type: none"> ▪ Developing thinking skills requires training and continuous practice through mental activities, such as solving complex problems, reading specialized books, and participating in discussions that require analysis and evaluation 	
Teaching and learning methods Lecture, discussion and practical application	
Evaluation methods <ul style="list-style-type: none"> • 50-degree test 	
(d) General and transferred skills (other skills related to employability and personal development)
